AUDIENCE GUIDELINES

Our events center Trans Queer Strip- and Sex workers on and off stage. While queering the space of a Strip Club.

Giving agency to all our trans & queer audience's desires, making each other feel hot, is what we love to do in this club.

This is not a place for Vibe Checkers, if you want to come to "see and be seen" go to a museum. If we feel like you are here to extract from us, you will be asked to change your attitude or leave.

We are here to appreciate each other, you can do that by tipping, screaming and shouting, we will do that by dancing for you!

We love the shy watchers too! As much as we love shy strippers. Don't touch the strippers unless they clearly invite you to do so by placing your hands.

You can tip by throwing Slutties, if offered you can slip them in/under the dancers' outfits.

No photos and videos, there will be a few people from our team documenting for our own archive. Thx <3
